**Legendă:**

- Dimensiunea **B** = deschiderea medie a rostului
- Dimensiunea **H** = înălțimea de montaj  
(în acord cu grosimea straturilor de finisaj)
- Dimensiunea **D** = amplitudinea de mișcare maximă  
(variația maximă a valorii B,  
urmare a mișcărilor de contracție / dilatație)
- Sarcina (**kN**) = sarcina maximă suportată din traficul peste rost,  
ex: pietonal, auto, tonaj greu etc.  
Valoarea nulă **X** este pentru cazurile în care acest  
parametru nu se aplică (rosturi la tavane și pereți).

Pentru fișe tehnice, detalii sau instrucțiuni de instalare, accesați website-ul **www.rosturi.ro**  
sau trimiteți e-mail la **office@rosturi.ro**.

**Conditii generale de vânzare:**

Producem în România pe bază de pre-comandă.

Avansul standard la darea comenzii este de 70% din valoarea totală.

Prețuri fără TVA, ex-works București, plătibile în lei la cursul oficial din ziua plății.

Prețurile au fost configurate pentru loturi standard egale sau mai mari de 100m, respectiv 500m.

Comanda minimă este de 50m pe sortiment.

Pentru solicitări între 50 și 100m, prețurile se vor recalcula separat.

Pentru cantități de peste 500m, se vor calcula discounturi individualizate.

Lungimea standard a segmentelor este de 3m. Cantitățile se rotunjesc în multiplu de 3m.

Prețurile nu includ transportul la șantierul beneficiarului.

Prețurile includ instrucțiuni de instalare, la cerere.

Oferim la cerere manoperă de instalare, pe ofertă separată, ulterioară comenzii de materiale.
